

# SecturaFAB: *Win More*

Experience the look and feel of SecturaSOFT's quoting and estimating solution for metal manufacturers; SecturaFAB. The tool allows manufacturers to optimize and automate their estimating and quoting activities. SecturaFAB uses graphical representation & nesting logic to optimize the quote generation process for manufacturers primarily in the fabricated metals, metal services, and industrial machinery industries. Below are two short videos that provide an overview of the tool, as well as a spotlight on the configurator tool for OEMs.
